

**Amphenol**   
Broadband Solutions®

**Innovative Technology**  
for a **Connected World.**

## Wireless

Wireless solutions to complete your mobile network. From micro, macro, DAS and beyond, ABS is ready to take you wireless.

## Transport

How do you get from here to there? ABS delivers unique distribution solutions that focus on keeping the signal in and the noise out! Less disconnects and better shielding empower your network to perform.

## Premises

Your network infrastructure comes down to this. The premises! ABS delivers residential, MDU, and commercial premises solutions to capitalize on state of the art architecture.

## Headend

State of the art technology is driving innovative solutions in the HFC network. Assemblies, Fiber Management, and Headend equipment are being reinvented inside the ABS labs.

## Mainline

Pioneering unique HFC solutions has paved the way for rich optical networks and ABS delivers innovations for the networks of today and tomorrow.

### Wireless Solutions

- Macro Solutions
- In-Building / iDas Solutions
- Small Cell / oDas Solutions
- C-Ran Solutions

### Cable Solutions

- Drop Cable
- Hardline
- Burial / Underground
- Headend
- Jumpers / Assemblies
- Connectors
- Kitting Solutions
- HDMI, A/V, and Data Cables

### Fiber Optic Solutions

- Transceivers
- Wall / Rack Mount Enclosures
- Optical Passives
- Universal Splice Trays
- Fiber Assemblies
- Node Cables / Assemblies

### RF Passives / Active Solutions

- Splitters / Directional Couplers
- Premises Amplifiers
- Grounding / Bonding
- Enclosures
- In-Line Filters / Attenuators
- Head End Equipment

# Training & Support

Everything You Need to Know to  
Get the Job Done Right

## Live Classroom Training

- Hands-on Training
- Complimentary Tools & Blade Changes
- Interactive Methods
- Live Demos

## Live Web Training

- Perfect for Large Groups
- Hit Multiple Locations
- Interactive

## Custom Training Modules

- Private Portal / Gateway
- Integrate Your Logo and Colors
- In-house Development Team

## ABS Training Portal

- Video Modules
- Knowledge Testing
- Custom Portals Available

Amphenol Broadband Solutions delivers hardware and infrastructure solutions as well as personalized support and service to the broadband, wireless and telecommunications industry. Build your network with in-house engineering design and manufacturing techniques backed by nearly 70 years of experience.
